

The Astronaut Farmer Barn ©

In the movie *The Astronaut Farmer*, Billy Bob Thornton plays a former NASA astronaut who understands a barn holds more than just the harvest. It holds the hopes of whoever dares to dream inside.

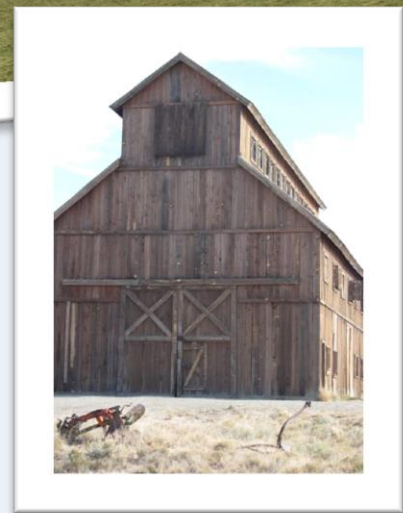

Inspired by this barn, The Astronaut Farmer Barn is 30' x 70' with four stalls on the left side and an add-on room and open work space on the right.

Your Astronaut Farmer Barn will include:

Complete Structure with stalls, doors and windows, partial loft on 2nd and 3rd story w/railing and 4' stair to second and third levels as well as an exterior stair (plus Cad Drawings, Foundation Plan Engineering Stamp and Seal).

Price varies by region and type of construction.

Please call or email for more information.
