

The Silverado Barn[©]

In the movie *Silverado*, the McKendrick Barn was just one of the sites where justice was won.

Inspired by the McKendrick Barn, The Silverado Barn is 36' x 48' with four stalls on the left side and an add-on room that could be an office, workshop or secure tack room on the right.

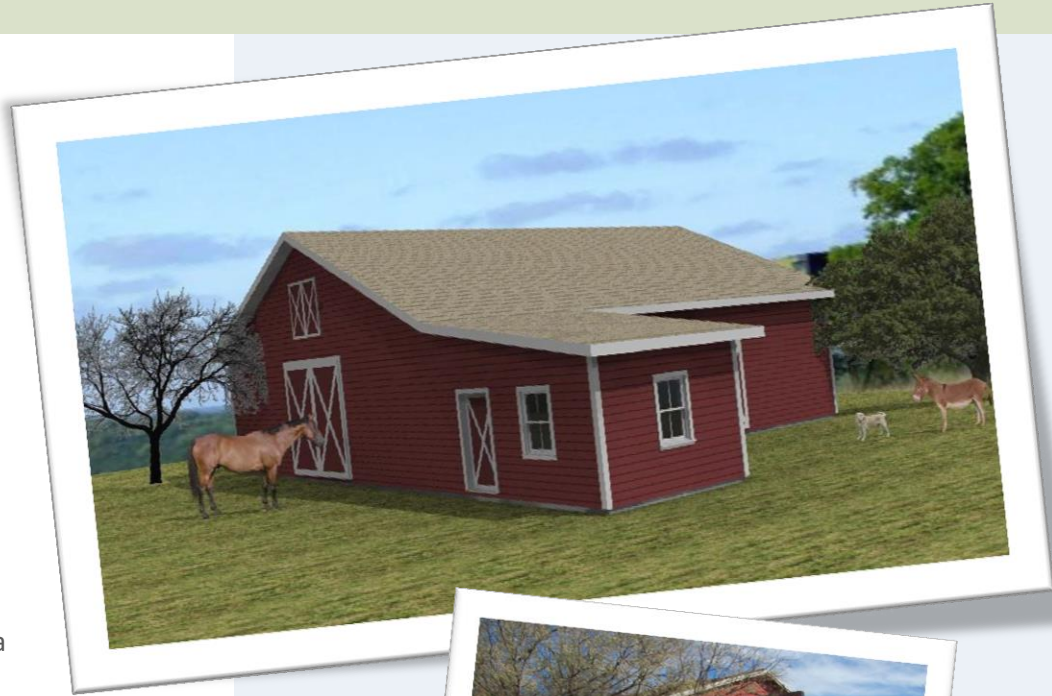

Want to know a secret? This barn also starred in *Lonesome Dove* with Angelica Huston; it was her lovely South Dakota Barn.

Your Silverado Barn will include:

Complete Structure with stalls, doors and windows, partial loft and 4' stair (plus Cad Drawings, Foundation Plan, Engineering Stamp and Seal).

Price varies by region and type of construction.
